## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. Claims 5 and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 5, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 5 and 9-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Berg et al' 127.

Berg et al' 127 show a chair seat and standing apparatus (10) comprising a pair of pads (64,74), a pair of seat platforms (62,72), a lower platform (9), and resilient means (16,20,26,30) positioned below the seat platforms and secured to the lower platform for springing action.

Art Unit: 3636

With claims 10-11, the resilient means has four resilient units.

***Response to Arguments***

4. Applicant's arguments filed September 16, 2002 have been fully considered but they are not persuasive.

***Remarks***

The examiner had reviewed and considered the applicant's comments in the Amendment, filed on September 16, 2002. It's the examiner's position that claims 5 and 9-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Berg et al '127. The applicant has argued that the prior art of Berg et al ('127) does not show or suggest claims 5 and 9-11. Based on the applicant's amendment, the examiner has now pointed out the structural features as shown and suggested by Berg et al '127 with regards to claims 5 and 9-11. The resilient means in Berg et al '127 do provide the rocking motion as claimed by the applicant.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3636

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
